

## MONTHLY GUIDE

	Jan	Feb	March	April	May	June	July	Aug	Sept	Oct	Nov	Dec			
<b>Booking Season</b>	CLOSED			SHOULDER		HIGH					LOW	CLOSED			
<b>Ave Daytime temp (°C)</b>	<b>Camp is closed due to heavy rains</b>			30	30	24	24		30+		30	<b>Camp is closed due to heavy rains</b>			
<b>Ave Nighttime temp (°C)</b>				17	17	10	10+	15	20+		17				
<b>Rainfall</b>				No rain should occur											
<b>Weather description</b>				Cool to Moderate evening temperatures and hot days.		Cold mornings but warms as sun rises. Cold evenings too. The wind chill factor can make it feel colder than the 10°C		Cold and cool mornings and moderate daytime temperatures.		Heat increases significantly as the build up towards the first rains begins however the mornings are still cool. Temperatures in October can reach 40°C					
<b>Vegetation</b>				Green and lush, vegetation is thicker however the scenery is stunning. Rivers should be flowing and water should be available around the area		Canopies are still green and lush and the grass takes on a golden colour as it dries. Bush is still thick from rainy season		Bush thins out very fast as the dry season kicks in. Leaves fall from the trees, grass recedes in some areas and rivers are dry except for the Zambezi river. Visibility is excellent.		Very dry, vegetation is now completely receded. Animals look for any source of water available.			Depending on when the rains start. Once the rain starts will experience a rapid transition from dry to green in a space of 2 to 3 weeks. A fascinating time.		
<b>Game experience</b>				Good					Excellent						
<b>Fishing</b>				Fishing is successful all year round, however the warmer months (September - November) are the best time to catch Tigerfish. This is the breeding season when the fish are more active, feeding more regularly and are far more aggressive. The water level is typically lower and the visibility at its best											
<b>Bird watching</b>				Excellent throughout the year with over 420 species recorded.											
<b>Insects</b>				Limited insects throughout the season and only really come out at the beginning of the rains - when we are closed.
