

AIRCRAFT FACT SHEET

Established in 2009 and based in East Africa, we provide professional air charter services and tailor-made flying safaris throughout East and Southern Africa.

Whether the requirements are for light aircraft, helicopters, or private jets, we will match the most economical aircraft to serve your specific leisure requirement. In support of our flying operations, you'll find our full concierge service extends across and throughout the region.

Truly exclusive flying experiences, combining luxury with economy and the convenience of flying privately, our expertise and resourcefulness is available 24hrs a day. No request is beyond our reach in order to make your journey as exceptional as the destination.

AIRCRAFT GUIDE

Our executively configured Cessna Grand Caravans and Cessna Stationair provide for short field capabilities, landing or taking off from shorter runways and landing strips, often providing passengers with access to smaller, local airports that are closer to their final destinations.

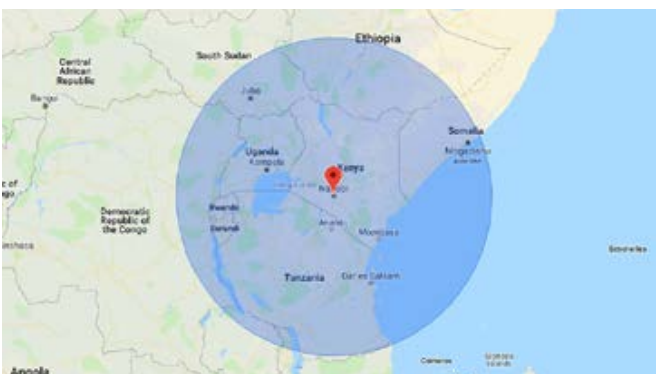

CESSNA GRAND CARAVAN 208B

FLIGHT SAFETY IS OUR NO.1 PRIORITY

There can be no compromise to safety - period. Our nine-year safety record is impeccable, we conduct constant and ongoing enforcement of stringent safety requirements, and our pilots are trained to the highest international air safety standards.

All our aircraft are equipped with real time satellite tracking devices, enabling real time operational control and position reporting capability. We operate the Garmin 1000 avionics suite on the Cessna Grand Caravans, which include all weather radar and TECAS.

Our team of highly experienced bush pilots are fully qualified ATPL, Instrument Rated (IR) flight instructors and our fleet of Executive Cessna Grand Caravans, are one of the youngest in the region - all less than 10 years old.

The Cessna Grand Caravan is the ultimate bush aircraft
