

LABA MIGRATION CAMP

MAP | LOCATION | ACCESS

Sites, location & dates

1. From 10 December to 31 March: South  
GPS 3°00'57.5"S 35°04'07.8"E

December through March the Migration Camp will be in the southern section of the greater Serengeti. Our camp will be based in Ndutu within the Ngorongoro Conservation Area as the wildebeest and zebra migrate to this area, for the calving season.

2. From 15 May to 30 June : West  
GPS 2°21'43.9"S 34°32'08.7"E

The Migration Camp will be in the western corridor of the Serengeti National Park. Our camp will be located in the rocky Grumeti area where the wildebeest and zebra start amassing after calving season before starting their journey north into Kogatende.

3. From 10 July to 20 November: North  
GPS 1°41'59.3"S 34°51'14.1"E

Mid July through November the Migration camp will be in the Northern most section of the Serengeti National Park. Our camp will be located in the Kogatende region where the wildebeest and zebra start back and forth crossing through the Mara river to access the plains of the Masai Mara and the northern plains of the Serengeti.

Access
