LIVINGSTONE ISLAND

Livingstone Island sits on the edge of Victoria Falls and is the very spot where Dr David Livingstone famously stated, 'scenes so lovely must have been gazed upon by angels in their flight.'

The island is managed by the Tongabezi Team, and you'd be crazy to miss the experience.

A boat delivers guests to the island to soak up the history and beauty. The brave can even swim in Devil's Pool, a naturally occurring rock pool on the edge of the waterfall, and have the thrilling opportunity to look over the very edge as thousands of litres of water jump over into the abyss below.

A very seasonal activity, access depends entirely on the Zambezi River levels. Devil's Pool is usually open between mid-August and late December, and the island is open a little longer on both sides of that.

Swimming is never guaranteed – ***please always check the river levels with our team in advance.***

Benjamin Parker (Tongabezi co-founder), quite famously first landed on the Zambezi River piloting a microlight equipped with floats.

GORGE ACTIVITIES

The gorges below the Falls don't get nearly enough attention considering how awe-inspiringly stunning they are.

Spend some time here if you're keen on jumping, diving or abseiling (any sort of controlled falling, really).

A special recommendation:

When our founder Benjamin Parker's English nephews came out from the UK on their first visit this was the first activity he took them to do (his daughters were heartbroken... as they were too small at the time and had to miss out on all the fun!)

Guests start by feeding the elephants (a big job!) and then enjoy an incredible feast themselves.

All the food is made with local Zambian ingredients.

- *Minimum age is 10 years.*

The fluctuating water levels of the Zambezi result in high and low water seasons. Be sure to ask our team what this means for your rafting experience.

At minimal extra cost you can walk/swim underneath the Victoria Falls before you go on the rafting trip.

- *Do wear comfortable shoes for the walk out of the gorge.*
- *Some level of fitness is required!*

A VIST TO TUJATANE - TONGABEZI TRUST SCHOOL

In May 1996, Vanessa Parker started Tujatane to help provide primary education to the children to the Tongabezi staff and their close family friends. Tongabezi is located in an area with scares educational funding and limited academic recourses, and this initiative has proven a huge success. We are incredibly proud of. Tujatane and everything it continues to achieve.

The school began as a preschool class of 15 students.

Today, Tongabezi Trust School has over 280 current students and is made up of classrooms, as well as an art room, a music room and amphitheatre, sports grounds, a library, and a canteen. The current President of Zambia has visited Tujatane on several occasions. The children participate in a variety of extracurricular activities such as ICT, sports, music, drama, cultural dance, chess and art. Tujatane also supports over 60 children who have moved on to secondary schools all over Zambia, and many Tujatane alumni are at universities and colleges all over the worldcross the globe.

Tongabezi Trust School students have gone on to become everything from accountants to engineers, lawyers to clinical officers, pilots to teachers.

Vanessa Parker still runs the school on a voluntary basis, but luckily now she has an incredibly talented team to help her do it.
